

7th International Conference on Cloud Computing and
Artificial Intelligence : Technologies and Applications

DESCRIPTION

CloudTech'25 is an international forum focused on presenting cutting-edge research, addressing challenges, and exploring trends in Cloud Technology, Artificial Intelligence, Big Data, High-Performance Computing, and the Internet of Things. It targets scientists, researchers, professionals, policymakers, engineers, and students interested in these areas.

In addition to regular tracks, the event will feature special sessions on innovative applications of Cloud Computing, AI, deep learning, machine learning, Blockchain, and a demo session showcasing innovations through prototyping and simulation.

From 25 to 27
November 2025

Rabat, Morocco

Conference Topics

- ✓ Track 1 – Cloud Computing
- ✓ Track 2 – Artificial Intelligence
- ✓ Track 3 – Big Data
- ✓ Track 4 – High Performance Computing
- ✓ Track 5 – IoT and Mobile Computing

Submission

Selected papers will be included in the **conference proceedings** and will also be considered for possible publication in **LNNS Series Springer Book**

Distinguished papers from **CloudTech'25** will be invited to submit a revised and extended version to some indexed International Journals
